Seth, I didn't in anyway think your comments were combative. You had a good question. See you Friday.

Firstly, none of my comments are meant to be combative – I am trying to get clarification. And I am glad (and depressed) to hear you to feel like all to often we are "surprised and ambushed" with this whole process. :) Thanks for clarification.

This meeting was set up at the request of Jennifer deNicola. We have facilitated the meeting through the District since it involves school property. We have not made any outreach to identify "concerned community members and teachers". This meeting was not public noticed in any official way. To my surprise, I just received a press release from PEER that announced the meeting and encourages folks to attend.

Steve:
How was the "concerned community members and teacher" selected, was the process public, was this meeting noticed? Please advise.

Thanks again for your efforts.

Seth.

Subject: EPA visit to Malibu High School

Jennifer,

We have come up with the following schedule for Jared Blumenfeld's visit to Malibu High School. Given his time constraints and to allow the various parties a chance to speak with him, we thought that this would be the best schedule.

Arrive at Malibu High School - 11:15 am on Friday, June 20

Meet with School Administration – 11:15 to 11:45 (at most 30 minutes, may be shorter)

Tour Malibu High School with school administration, community and teacher representatives – 11:45 to 12:30

Meet with concerned community members and teacher – 12:30 to 1:15 (school administration will not participate in this meeting and they will provide a room for the meeting)

There will be EPA representatives who can stay past 1:15 when Jared will need to leave. Please let me know how many people you want to have on the tour portion of the visit. We are looking forward to the visit.

Thanks, Tom
